

Thank you for participating tonight - we appreciate your input!!

1. This study has addressed many aspects of transportation, land use planning and urban design with the goal of moving people and building strong communities. Have we captured the opportunities to make this a street with access for all modes, including walking and cycling?

2. Do you have any other issues you would like us to know about relative to this project?

3. Do you have any comments for us about how the PIC was run? Overall, how would you rate it?

If you require a response, or would like to be added to our project mailing list, please provide your name and e-mail address below:

The study is being undertaken in accordance with the requirements of the Municipal Class Environmental Assessment (EA) (2000, as amended in 2007). It addresses Phases 1 and 2 of the Class EA process. It is expected that the Hurontario/Main Street Corridor Study will proceed with the completion of the EA process or the new six-month Transit Project Assessment Process. Funding for implementation has not yet been approved.

Please submit your comments by **April 16, 2010** to any of the project staff listed below, or to inquiries@hurontario-main.ca. We thank you for your input!
